

Why should my store use RPR?

Why wasn't I paid?

How do I handle all of these chargebacks?

Because RPR is different.

Not all coupon services are the same. And whether you're using a clearinghouse to process your coupons, or submitting them directly to the manufacturers, you should consider switching to RPR.

- "Get the FACTS™!" - RPR's Fully Auditable Coupon Tracking System gives you the ability to track the status of your shipments, payments, adjustments, and reversals
- **Faster Payments** – RPR will process payments immediately from receivables so that you will see them in your next check
- **Ethical Processing** – RPR's contracted processing facility, Phoenix Global Data, provides many benefits:
 - Faster turnaround time – 5 to 7 days, from shipment receipt to invoicing
 - Faster invoice delivery – direct delivery to NCH's docks, and fast delivery to CMS
 - Phoenix's owner, Frank Clausen, has been processing for retail clearinghouses since the 1980s
- **No strings attached** – RPR charges no sign-up fees, has no shipping minimums or maximums, and no additional fees will be added to your invoices
- **We're On Your Side** – Our Customer Service team challenges all coupon denials, big or small, to put more money in your pocket.
It's the best possible service in the industry!

Why wouldn't you switch?

What can RPR help you do?

"Ron is as good as his word... [RPR's] customer service is impeccable."

– Raynetta Hughes, Arizona Food Marketing
